Project Type: Renovation

Date of Completion: 2010

## TSUEN WAN TOWN HALL – Sound Control Room

The Sound Control Room has been refurbished to provide a new look, and better working environment with better equipment configuration.

New equipment has been embedded to the system to enhance the work for better services.

Media matrix system supported by SymNet Digital Signal Processor allowing full audio system back up of the auditorium.

- New re-wired audio cables running from the stage to the control room.
- New organized patching system.
- New painted walls and ceiling in black colour.
- New installed LED working track light.

BEFORE  
RENOVATION
